

ADITYA SARIN

Aspiring Software Engineer — Data Science & AI/ML

adityasarinxb@gmail.com +91 9871282688 [Linkedin](#) | [Aditya Sarin](#) [GitHub](#) | [adityasarin12](#)

PROFESSIONAL SUMMARY

Third-year Computer Science Engineering student specializing in Artificial Intelligence and Machine Learning, with a strong foundation in data-driven problem solving and software development. Passionate about building scalable AI systems using Python, Large Language Models (LLMs), and Generative AI. Seeking Software Engineering / Data Science / ML internship opportunities to apply NLP, Retrieval-Augmented Generation (RAG), prompt engineering, and product-focused development.

SKILLS

Languages: Python, Java (basic)

Core CS: Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks

AI/ML & Data: scikit-learn, Pandas, NumPy, Matplotlib, SMOTE NLP, LLMs, RAG basics

Frameworks / APIs: Streamlit, Google Gemini LLM API, gTTS

Concepts: Generative AI, Prompt Engineering, Vector Search (basic), Semantic Retrieval

Databases: MySQL

Tools: Git & GitHub, VS Code, Jupyter Notebook

PROJECTS

AI-Dev OPS Failure Prediction and Self-Healing System *Python, FastAPI, Pandas, NumPy* (June 2026)

- Built an AI-based system to predict cloud task failures using Google Cluster Data 2019.
- Implemented anomaly detection and risk scoring for proactive system monitoring and failure analysis.
- Developed modular ML pipelines for preprocessing, prediction, and cloud-compatible API integration.

AI Powered Resume Analyzer [GitHub](#) *Python, Streamlit, Gemini API, LLM, NLP* (July 2025)

- Built an AI-based resume evaluation tool with OCR fallback for scanned resumes.
- Integrated LLMs to provide structured, personalized feedback using prompt engineering techniques.
- Implemented concepts related to semantic understanding and NLP pipelines.
- Achieved over 95% text extraction accuracy and reduced response time to 10–12 seconds.

Personal Assistant [GitHub](#) *Python, Gemini API, gTTS, LLM* (June 2025)

- Built a voice-enabled desktop assistant capable of answering queries using LLM APIs.
- Implemented NLU and speech synthesis for human-like responses.
- Explored context-aware conversations and real-time AI interaction.

Electronic Gadget Shop Management System [GitHub](#) *Python, MySQL* (Jan 2025)

- Designed a CRUD-based application for inventory, billing, and customer management.
- Reduced manual billing time by approximately 70% through automation.

EDUCATION

Bachelor of Technology – Computer Science Engineering (AI & ML)

Sharda University, Greater Noida

CGPA: 8.9 / 10

2023 – 2027

ACHIEVEMENTS & ROLES

- Contributor: Social Winter of Code (2024)
- Core Member, Google Developer Student Club (GDSC)
- Contributor: GirlScript Summer of Code (2024, 2025)

CERTIFICATIONS

- TCS iON AI and Cybersecurity Awareness – TCS (June 2026)
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – Oracle (Oct 2025)
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional – Oracle (Oct 2025)
- Java Foundations – Oracle
- AI/ML for Geodata Analysis – ISRO
- 100 Days of Code: Python Bootcamp – Udemy
